

Final Examination Policy

Final examinations are scheduled for the last four days of each semester. Examination periods are two hours with breaks of at least 60 minutes between each exam period. Every class meets during its scheduled examination time and attendance is required. Students are expected to take final examinations as scheduled. A student who has more than two examinations during one day of the examination period may petition the relevant faculty for a makeup examination on a different day provided that proof of three final exams on the same day is documented. Students sharing rides must delay departure from the campus until all riders have completed final exams. The detailed examination schedule is located on MyBC.
