

A photograph of the Easley Library building, a two-story brick structure with large windows and a central entrance. The building is set against a clear blue sky with some light clouds. In the foreground, there is a grassy lawn and a large, dark evergreen tree on the right side. The sun is visible in the upper right corner, creating a lens flare effect. The text "Welcome to Easley Library!" is overlaid in large, bold, red letters across the center of the image.

Advanced Search for Choosing Limits for Your Search

You can limit your search by location, material type, language, published date range, and publisher. Easley Library's catalog also shows what other libraries in our library consortium have. You can search those other libraries or "View Entire Collection" to see what is at all libraries in the consortium. If you need a book from another library, ask us about Interlibrary Loan.

The screenshot shows an "Advanced Keyword Search" interface. At the top, there are navigation tabs: "New Search", "Resources", "Reserves", and "Your Library". A search bar contains "(More Searches)" and a search icon. Below the search bar, the "Advanced Keyword Search" section includes a "Enter Search Terms" area with four "Any Field:" dropdown menus, each followed by a text input field and an "And" dropdown menu. There is a checkbox for "Limit search to available items" and "Submit" and "Clear Form" buttons. Below this is the "Add Limits (Optional)" section with three dropdown menus: "Location" (with "Bluefield College" selected), "Material Type" (with "PRINTED MATERIALS" selected), and "Language" (with "English" selected). To the right of the "Add Limits" section is a "Search Tips" area with sections for "Wildcards", "Boolean Operators", and "Field". A blue callout bubble points to the "Material Type" dropdown, containing the text: "You can choose to search for only print books or only e-books." A yellow callout bubble points to the "Field" section, containing the text: "24 - Clipboard Item not Collected: Delete items to increase available space".

If you find a book at another library, you can request it through Interlibrary Loan

Search by Author

A search form with a dropdown menu. The dropdown menu is open, showing options: Keyword, Keyword, Author (highlighted), Title, Subject, and Journal Title. The text "lewis, c s" is entered in the search box. A "Search" button and a link to "Advanced Search" are also visible.

From the dropdown menu, you can also choose to search the catalog by author. Type in the last name first, then a comma, space, and first name.

Search by Title

If you know the title of the book you are looking for you can search by title. You can use all lower case letters and you can omit “the,” “and,” or “an” at the beginning of any title.

Final Tips!

- To request books by Interlibrary Loan, contact any librarian.
- If you are not finding what you need, ask any librarian for help.
